

Aluminium telescopic tripod CT4, 1000 kg

Use:

- Underground networks.
- Roads.
- Useful when working on a site in particular for underground work when there is no upper anchorage point.

Technical properties

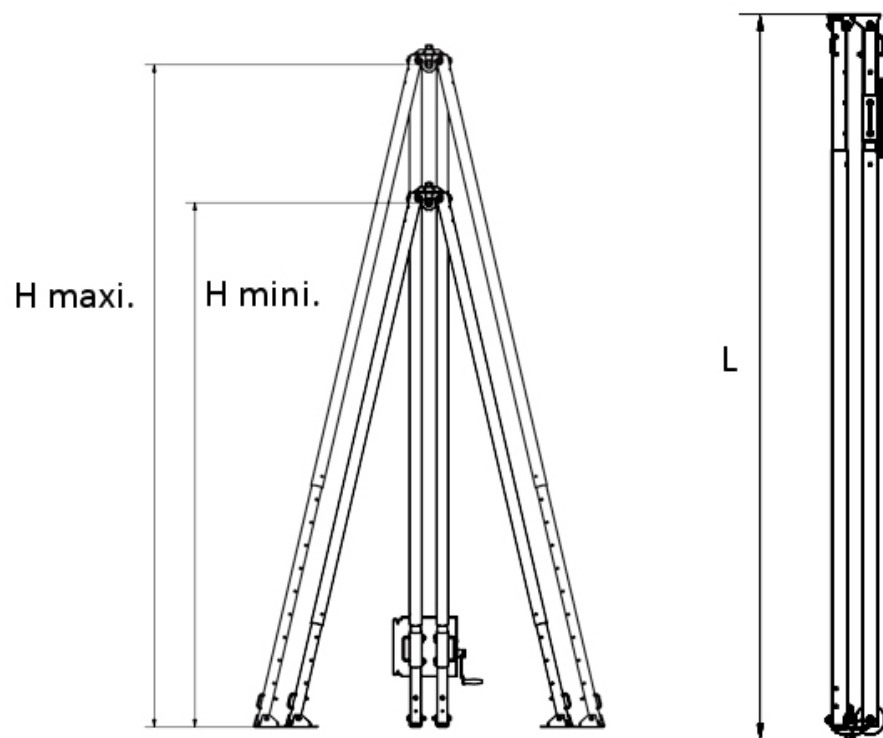

- Aluminium structure: lightweight, solid and highly resistant to corrosion.
- Compact when folded.
- Telescopic.
- Easy to transport.
- Articulated with 2 positions depending on the model: spade tip (soft ground) or flat shoe (hard ground).
- Lags are held together with 3 independent textile straps with self-locking buckle.
- Head: high strength cast aluminium.
- Multiple anchor points for fitting a pulley, a second hook for a tackle...
- Fitted with a fixation plate on a double leg providing the means for fitting manual winches and can thus lift loads up to 1000 kg depending on winch.
- Options: manual winch (MANIBOX GR 1000 kg - 30 m of wire rope).

Technical characteristics of Aluminium telescopic tripod CT4, 1000 kg

References	CT41000
